Kestrel[®] 2000 **Pocket Thermo Wind Meter**

When you need to know wind, temperature, and wind chill conditions, you need the Kestrel 2000 Pocket Thermo Wind Meter. Pocket-sized and easy-to-use, the Kestrel 2000 allows you to take fast, accurate readings of the environmental conditions wherever you are. It can track maximum and average wind speeds along with current readings, and allows you to choose measurement units to suit your application.

- Wind speed readings in knots, meters per second, kilometers per hour, miles per hour, feet per minute, Beaufort force
- Wind speed accuracy $\pm 3\%$ of reading
- Very low startup speed (0.3 M/S)
- Temperature readings in $^{\circ}\text{C}$ and $^{\circ}\text{F}$
- Temperature accuracy $\pm 1^{\circ}\text{C}$
- Large, easy-to-read backlit display
- External temperature sensor for fast and accurate response
- Impeller can be replaced without tools
- Includes slip-on hard cover, adjustable lanyard, and battery
- Waterproof and floats
- 5 year warranty
- Assembled in the USA
- US Patent No. 5,783,753 and 5,939,645

Hand-held, accurate and easy to use.

Patented replaceable impeller ensures lifetime accuracy. Slip-on case protects the unit.
