

AlcoVUE Service & Calibration

Frequency:

It is recommended to have AlcoVUE units inspected and calibrated every 12 months, as per the Guidelines set out by the Australian standard 3547-2019-2. Calibration under AS 3547:2019-2 is the backbone of ensuring breathalysers remain accurate, legally valid, and safe for use in both personal and professional settings.

Cost:

AlcoVUE Service & Calibration starts at AU\$120 exGST plus return freight

To return your unit:

Please contact us at sales@pacdatasys.com.au if a pre-quote is required for your records & processing before sending in the unit.

Please return your unit to

PACIFIC DATA SYSTEMS
27 Hi -Tech court
Eight Mile Plains QLD 4113

Please include the pre-quote number with your submission. If a pre-quote has not been obtained, kindly provide a contact email and return delivery address for when the unit is completed.

Processing Time:

Once our technical service team receives the unit, you will be contacted with the final service quote within three business days.
