

BEACON V3

The BEACON V3 is a multi-sensor, multi-connected solution built for the toughest sites. Configurable, hyperlocal, worker exposure monitoring at scale. No personal phones or IT infrastructure required.

Heat Index

eWBGT

Temperature

Location

Humidity

SOS Alert

Noise

Fall Detection

How the BEACON V3 Works

Through BLE, WiFi, and Cellular; protection can be deployed easily with minimal interruption. Wearable or mountable the BEACON V3 provides real-time data and automated alerts on worker exposure indoors or outdoors.

•**Thermal Monitoring:** Air Temp, Humidity, Air Pressure, Dew Point, Heat Index, Apparent Temperature, Humidex & eWBGT

•**Noise Monitoring:** Sound Pressure Level, A, C, or Z weighting (Fast or Slow), *LLLeeee*, Dose & Projected Dose, TWA & Projected TWA

•**Lone Worker Protection:** GPS, Panic Button, No Movement Alert, Coarse Indoor Location, Impact & Fall Detection

SlateSafety Platform & Mobile App

The SlateSafety Platform and SlateSafety Go mobile app provide administrators with a centralized, cloud-based system to manage all devices in real time. Whether viewing live or historical data you gain access to detailed analytics, reporting and receive instant alerts when thresholds are exceeded.
